The suggested "Re-test" date shown on this certificate reflects a minimum period in which we would expect product to remain in good usable conditions if stored as recommended. Thereafter its continued shelf life may be very much longer and we advise re-test at the indicated date and then every 3-6 months up to a suggested commercial expiry date as shown below. Certificate of analysis does not release customers from their quality responsibility when processing our products. This COA is produced electronically therefore no signature is required.
